Subject: Canvass Information

Dear Directors:

Good afternoon and thanks for your hard work and patience as we ensure all canvassing responsibilities are met. As discussed in my email last evening, we are continuing to work with DMV to get needed information. I can assure you that we are all making every effort to provide you the needed information as quickly as we are able to do so.

Delaying Canvass

On October 27, a federal court required elections officials and DMV to create a special review process for certain provisional ballots cast on Election Day. We acted quickly to create procedures and to print and distribute materials for the state's 2,704 precincts. The court order requires counties to approve provisional ballots when **(1)** a voter affirms he or she registered or changed her address at the DMV, and **(2) the DMV cannot locate a signed declination form**. That second requirement has required DMV and SBE to work very hard to locate declination forms, and we have had teams of people working to ensure that all "DMV" related provisionals have been included in this specific research.

Until a county receives a list of **court-ordered provisionals** that must be counted, the county cannot canvass. We will identify the report as "**Court-Ordered Provisionals**". Please continue to record staff recommendations in advance of your provisional meetings in the provisional module.

State law authorizes a county board to delay canvass for a reasonable time. Many of you have already acted to do just that. For those that have not, you must do the same, unless normal provisional research has resulted in approvals of all provisional applications for "no record of registration" and the State Board Office has indicated there are no further provisional ballots covered by the court order. If you have any provisional ballot that was cast due to "no record of registration" and you do not find the voter to be registered through normal DMV research, you cannot disapprove that ballot until you have received the "**Court-Ordered Provisional**" report. It is our hope that all counties will receive sufficient authorization to conduct canvass by Monday. If you delay your canvass, please let me know and update the google form https://docs.google.com/forms/d/e/1FAIpQLScw39K3AiihFqqpLPm6l_UDOiY5HC09nC51jzOLjRE7TaSiMw/viewform .

Protests

Various protests are pending across the state. If a protest concerns the counting or tabulating of votes, you must resolve that protest before canvass. Please review GS 163-182.10 regarding steps required once a protest is filed, including providing this office a copy within 24 hours, holding a preliminary hearing to determine if there is probable cause, and if so holding a full hearing on the merits. This office is available to answer questions about the process, and we recommend that you consult with your county attorney where needed.

Lucy Smith will call name and check off list. Jay will initial and open envelope. George will pull ballot and stamp the original. A staff member (or George if there are not many) will stamp the duplication ballot and write the precinct number on both the original and duplicate ballots. The provisional then goes to a bi-partisan team for duplication. Once duplication is complete, the duplicated ballot will be scanned by staff (Jennifer Sparks). Finally, a staff member will pull the provisional applications for the registration team to scan at a later time.

Some counties have received signed DMV transaction affirmations from provisional voters delivered to county offices. If you receive such a supplemental form, scan the form immediately and upload it to the Secure FTP, including your county name in the file title. We will make sure DMV is made aware of the DMV supplement form so that we can let you know whether a signed declination form is on file, as described above.

Please let us know if you have questions-
