DATE: January 6, 2016

SUBJECT: *DPI Facility Needs Survey*

Attached are the summary reports for the five-year NCDPI Facility Needs Survey. This report will need to be certified by the Board of Education at the January meeting and go to the County Commissioners before submittal to NCDPI. The Report is a snapshot of the current membership and capacity at each school and projects membership and capacity over the next 10 years. In addition, the survey identifies and budgets capital improvement needs for current to five years and six to ten years out. Finally, NCDPI gathers information about each building on campuses, their condition, accessibility and energy usage. This detailed information is compiled by NCDPI for statewide reports.

According to NCDPI projections, the Buncombe County School System will see a slight increase in membership over the 10-year timeframe. Costs for large capital improvement projects (\$100,000 and above) amount to \$56,632,684 in years 0-5 and \$32,846,159 in years 6-10. This does not include regular maintenance items typically funded Capital Outlay yearly process. These capital improvement costs align closely with our long-range planning projects.

The worksheets and capacity calculators used to develop the summary sheet reports are available for your review.

RECOMMENDATION: Certify the 2015-16 DPI Facility Needs Survey and forward to NCDPI pending approval by the County Commissioners.
