Clint Gorman,
Buncombe County

Clint,

On Friday June 22, 2012 ,a lightning strike of an obsolete part caused our radio system to fail completely.

Being the 911 Center for the County, a radio failure of any nature is quite urgent. Whitleys advised me that they thought Buncombe County may have spare parts. I asked them to make the request of Buncombe County for the parts.

I cannot thankyou enough for this gift. We are back up and running.

Dianne
