

Buncombe County Agenda Item Information Sheet

AGENDA ITEM: Owen Park stream bank repair and Zeugner Pool repair.	
MEETING DATE: May 7, 2013	
REQUESTED BY: Greg Isreal, Director, General Services	
Background information Owen Park: due to a change in the stream bed erosion has taken place on the dam wall of the lower pond. Repairs must be made soon to prevent a breach in the dam wall. ----- Zeugner Pool: The climate control system is beyond repair and must be replaced; the primary concern is controlling the humidity in the pool building thereby preventing microbial growth that would cause an air quality problem.	
Pro's The completion of each project restores a measure of safety to each site that will be missing otherwise.	Con's none
Funds required No new county funds required. Project costs of \$150,000 (Owen Park) and \$100,000 (Zeugner Pool) are being transferred from General Services to Capital Projects.
