Provider of Safe, Caring, and Responsive Public Transportation Services

Mountain Mobility was established by Buncombe County in 1989. Although the system originally was designed to serve the transportation needs of a few human service agencies, the system has grown to serve a wide variety of organizations, as well as provide general public transportation services.

Over 50 drivers, dispatchers, and other staff are employed by Buncombe County to provide transportation services. All Mountain Mobility drivers receive thorough training in defensive driving, special needs assistance, first aid, adult and infant CPR, and other areas. Each driver must have a good driving record and be familiar with Buncombe County's roads and highways. All drivers have clean criminal background checks and must pass ongoing drug and alcohol screening programs.
