IT IS UNDERSTOOD AND AGREED BETWEEN THE GRANTOR AND THE GRANTEE:

1. That the Grantee shall have the right to clear the permanent easement and temporary construction easements described above and the right but not the obligation to keep the permanent easement clear at all times, and the right to remove from the permanent easement and temporary construction easements all brush, trees and other obstructions, and to go upon said easements whenever necessary for the purpose of clearing the same and removing therefrom all brush, trees and other obstructions of any kind.

2. That the Grantor shall at all times, other than while the sewer lines are under actual construction, have the right to use said permanent easement and said temporary construction easements, in the same manner as has been heretofore done; provided such use shall

in no manner interfere with or be inconsistent with the use thereof by Grantee as provided herein. Prohibited uses of the permanent easement by the Grantor include, but are not limited to, the following: the erection of a shed, building, structure or other obstruction within the permanent easement by the Grantor shall not be allowed; the planting of trees within the permanent easement by the Grantor shall not be allowed; additional fill cannot be placed within the permanent easement except after prior written consent from the Grantee; and other utility lines, including but not limited to, electric, gas, telephone, cable, or water lines, cannot be constructed within the permanent easement except after prior written approval by the Grantee.

3. That the Grantee agrees to restore the topography of said easement area after installation of the sewer lines and accessories to approximately the same condition as existed before said installation.

4. That the Grantor shall have the right to pass over and upon said permanent easement with appropriate roadways for the full use of their property, provided, however, that the construction, maintenance and use of said roadways shall in no way interfere with the sewer lines and accessories constructed within said permanent easement. As to paved roads, the Grantee, in future repairs or maintenance of said sewer lines and accessories, shall only be responsible for regravelling, tamping and patching the portion of said paved roads disturbed by such work. As to non-paved roads, the Grantee shall only be responsible for regravelling and tamping in connection with any repairs or maintenance.

5. If the Grantor has a sewer service line ("service line") that presently leads from the Grantor's residence or building on the Grantor's property to the existing main sewer line which may be abandoned by the Grantee, the Grantee agrees that it will connect the service line to the new or rehabilitated sewer line that will be located within the permanent easement described above. The Grantor hereby authorizes the Grantee to enter upon the Grantor's property and to excavate on the Grantor's property outside of the permanent and temporary construction easements described herein for the purpose of locating and connecting said service line. The Grantee shall perform such excavation in a good and workmanlike manner and shall obtain prior approval from the Grantor as to specific areas of Grantor's property to be excavated. The Grantee shall also restore the topography of the Grantor's property after location and connection of said service line to approximately the same condition as existed before said work. The Grantor agrees to cooperate with the Grantee and to allow the Grantee reasonable access to the Grantor's property in order for the Grantee to perform the above-described work.

6. Other conditions and provisions:

TO HAVE AND TO HOLD said temporary construction easements and said permanent easement unto said Grantee, its successors and assigns, upon the terms and for the time periods set forth above.

The Grantor covenants to and with the Grantee, its successors and assigns, that the Grantor is lawfully seized in fee simple of said lands and premises and has full right and power to convey these easements to the Grantee, and that said lands and premises are free from any and all liens and encumbrances, and that they will and their successors and assigns shall forever warrant and defend the title to said easements unto the Grantee, its successors and assigns, against the lawful claims of all persons whomsoever.

IN WITNESS WHEREOF, the Grantor has hereunto executed this document, as of the day and year first above written.
