Item: Interfund Transfer for Farmland Protection Plan

Description:
The Farmland Protection Plan is a tool used by county and municipal governments in developing recommendations for policies and projects aimed at maintaining the economic viability of the State's agricultural industry and its supporting land base. The farmland protection plan analyzes two links simultaneously – land preservation to defend the very possibility of keeping an agricultural landscape, and farm profitability to keep the present generation on the land and draw in new blood to secure the future. This plan will include all requirements and recommended information as per NCDA&CS's Ag Development and Farmland Preservation Trust Fund and will include new actionable farmland preservation goals with measureable outcomes. This ordinance transfers savings to the General Fund for this plan.

Funding Source:
Budget savings from existing Conservation Easements. Revenue accounts included for accounting purposes.
