Risk, Safety, and Compliance

# Alertus

# Current progress

✓ We have completed the initial installation of the Alertus Hardware for phase 1 and we have all of the equipment on hand to complete phase 2. We will purchase and install equipment for the final phase next fiscal year.

✓ I.T. has plans to install the Alertus software on employees' computers the week of Nov 1st. This will allow all county employees to receive messages.

✓ Alertus training has already begun. Our goal is for the training to be completed within the next 6 months.
