**REQUIRED DIAGRAM AND FIRING SITE INFORMATION**

*Our goal is to provide you with the **BEST** possible display for your event dollar, under the safest conditions.*

It is a requirement of our Insurance Carrier and the authority having jurisdiction that a **SCALE** firing site diagram or aerial photograph be provided showing accurate distances in **ALL DIRECTIONS** to buildings, spectators, parking and bulk storage facilities, as well as roadways and highways that will remain open during the fireworks presentation. The scale firing site diagram or aerial photograph must clearly indicate the safety zone lines and limits that have been established for this program. An approved **SCALE** firing site diagram could be kept on file for future reference! Insurance Certificates will not be processed unless an approved firing site diagram or aerial photograph has been submitted.

Please use the following checklist to assist you in submitting your map/diagram. If an item is not applicable to your situation, please insert N/A.

Distances (in feet) from the firing site to the following:
