Juvenile Crime Prevention Council Funded Program Descriptions

Executive Summary

The Buncombe County Juvenile Crime Prevention Council (JCPC), in fulfillment of the duties and responsibilities as set forth in the General Statutes of the State of North Carolina, has completed the activities required to develop this County Plan for FY 2013 through FY 2014.

The JCPC has identified the issues and factors which have an influence and impact upon delinquent youth, at-risk youth, and their families in Buncombe County. Further, the JCPC has identified the strategies and services most likely to reduce/prevent delinquent behavior.

Priorities for Funding: Through a risk and needs assessment and a resource assessment, the JCPC has determined that the following services are needed to reduce/prevent delinquency in Buncombe County.

- Parent and Family Skill Building
- Experiential Skill Building with a Mentoring Component
- Tutoring/Academic Enhancement
- Vocational Skills
- Mediation
- Restitution/Community Service
- Teen Court
- Structured Day
- Sex Offender Treatment
- Runaway Shelter
- Specialized Foster Care
- Temporary Foster Care

Monitoring and Evaluation: Each program funded in the past year by the JCPC has been monitored. The monitoring results and program outcomes evaluations were considered in making funding allocation decisions.

Funding Recommendations: Having published a Request for Proposals for these needed services for a minimum of thirty (30) days, the JCPC has screened the submitted proposals and has determined which proposals best meet the advertised needed services. As required by statute, the JCPC recommends allocation of the NC Department of Public Safety, Division of Juvenile Justice funds to the following programs in the amounts specified below for FY 13-14 (See JCPC Funding Allocations page):

I.	Academic Enhancement	\$36,540
II.	Blue Ridge Treks	\$32,095
III.	Buncombe County Teen Court	\$17,221
IV.	Earn and Learn	\$211,205
V.	Home Based Services for Juvenile Sex Offenders	\$101,103
VI.	Trinity Place	\$85,500
VII.	Youth Mediation	\$20,900

The JCPC further recommends that the following amount be allocated from the NC Department of Public Safety, Division of Juvenile Justice funds for the administrative costs of the Council for FY 13-14: \$3,500

Respectfully Submitted,

Michele Lemell, Chair
Buncombe County Juvenile Crime Prevention Council

SUMMARY REPORT OF THE BUNCOMBE COUNTY RISK AND NEEDS ASSESSMENT COMMITTEE

- I. Risk Assessment Summary**
- II. Needs Assessment Summary**
- III. Resource Assessment Summary**
- IV. Summary of Gaps and Barriers in the Community Continuum**
- V. Proposed Priority Services for Funding**

Part I Risk

The Risk and Needs Assessment Committee reviewed data gleaned from the Juvenile Risk Assessment instrument administered by Juvenile Court Counselors after juveniles are referred with a complaint alleging that a delinquent act has occurred and prior to adjudication of the juvenile. The Juvenile Risk Assessment is an instrument used to predict the likelihood of the juvenile being involved in future delinquent behavior. For some youth, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items *(represented by percentages which with a star next to them)*, there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Demographic and Other Observations

Court counselors have seen a trend of younger females coming in that are ungovernable and undisciplined.

More youth are being seen with less prior adjudications.

Parenting skills are lacking.

Buncombe County Risk Factor Observations: FY 2011-2012

R8 Relationships with Peers – Only 39% of youth report having positive peers that are good support and influence in 2011-12. The percentage of youth that lack pro-social peers or sometimes associates with delinquent youth stays consistent at 42% in 2010-11 and 2011-12 this is higher than the 39% compared to the State in 2011-12.

R7 School Behavior Problems – The percentage of minor problems in Buncombe County rose from 7% in 2010-11 to 10% in 2011-12. The moderate problems have also increased from 32%

in 2010-11 to 36% in 2011-12. The States trend of serious problems has stayed consistent at 45% while Buncombe County's trend decreased by 6% in 2011-12.

Part II. Needs

The Risk and Needs Assessment Committee also reviewed data gleaned from the Juvenile Needs Assessment instrument administered by Juvenile Court Counselors prior to court disposition of a juvenile. The Juvenile Needs Assessment is an instrument used to examine a youth's needs in the various domains of his life: The Individual Domain, The School Domain, The Peer Domain, and the Community Domain. This instrument was designed to detect service intervention needs as an aid in service planning. As with the Juvenile Risk Assessment, some of the individual item ratings may be heavily dependent upon information reported by the juvenile or the parent(s). For these items (*represented by percentages which with a star next to them*), there is a likelihood of under-reporting the incidence of a particular behavior and the actual incidence may be higher than suggested by these figures. In those cases, the figure should be interpreted as a measure of the minimum level of occurrence.

Buncombe County Elevated Needs Observations: FY 2011-2012

Y2 School Behavior – The percentage of youth with serious school behavior problems has dropped from 37% in 2010-11 to 32% in 2011-12 while the percentage of youth with minor school behavior problems has risen 4% from 2010-11 at 10% to 14% in 2011-12.

Y6 Abuse Neglect History - The percentage of youth in Buncombe County that state they are a victim of abuse but are receiving support has increased 3% each year since 2009-10.

Y8 Mental Health Needs – In Buncombe County the youth that are referred to the court receive regular mental health assessments at 50% in 2011-12, the State is at 34% in 2011-12. The State shows that 32% of youth need more mental health assessments.

F2 Family Supervision Skills – In 2010-11 the County had 51% of youth in a home with marginal parental supervision skills. That percentage has now dropped to 44% with families that have marginal supervision skills. The percentage of youth in a home with inadequate family supervision skills has rose from 2% in 2010-11 to 5% in 2011-12.

F1 Conflict in the Home – Domestic discord in the home has increased from 16% in 2010-11 to 21% in 2011-12 while the percentage of those in a supportive home in 2011-12 is 74% which is a 6% decrease from 2010-11.

F4 Family Substance – There is a slight increase in family substance abuse from 2010-11 at 13% to 14% in 2011-12.

F5 Family Criminality – 34% of youth in 2011-12 involved in the courts in Buncombe County have a family criminality history this is a 4% increase from the 30% in 2010-11.

Part III. Summary of the Existing Community Resources

See attached Continuum of Services

Part IV. Summary of Gaps and Barriers in the Continuum of Services

- Tutoring services specifically targeted at court involved youth.
- Skill based/experiential mentoring.
- There is a general community need for parenting skills.
- There is a need for therapeutic foster care.

Part V. Proposed Priority Services for Funding

The committee compared the services needed to address the elevated Juvenile Risk Factors and Juvenile Needs with services currently available in the community. Services which are currently available in the community and sufficient to meet the needs of court involved youth or those youth most at risk for court involvement are not considered as a priority for JCPC funding.

The Committee proposes that the following services be approved as the funding priorities for FY 2013-2014.

- Parent and Family Skill Building
- Experiential Skill Building with a Mentoring Component
- Tutoring/Academic Enhancement
- Vocational Skills
- Mediation
- Restitution/Community Service
- Teen Court
- Structured Day
- Sex Offender Treatment
- Runaway Shelter
- Specialized Foster Care
- Temporary Foster Care

Buncombe JCPC Funded Program Descriptions

2013-2014

Teen Court: Teen Court is an early intervention program that is both community service and community resource based. Teen Court serves first time youthful offenders who admit guilt to their actions and are given an opportunity to be heard in a court of their peers with an adult judge. Its purpose is to require young people to take responsibility for their actions and to allow the community to take an active role in addressing juvenile crime. It is designed to provide a community-based alternative to the formal court process, as well as divert caseloads for the juvenile court counselors. The program addresses an accountability approach that encourages a sense of responsibility on the part of the juvenile and their families. Teen court permits redirection of the available juvenile court time and resources to focus on more at risk offenders. In addition, it is hoped that these approaches will reduce the likelihood of juveniles re-offending and minimize negative labeling of referred youth. The program utilizes over 50 volunteers in Buncombe County from the bailiff, clerk of courts, adult judges and youth attorneys and jurors who are trained twice a year and volunteer to prepare youth cases. We have a high percentage of our defendants who maintain a C average come back and participate after their mandatory sentence is complete. This program has is a restorative service program that serves the Juvenile Justice Treatment Continuum (JJTC). This program works with youth on diversion contracts while serving as a community service educational component for youth on long term probation and who need to complete and learn about service to the community by volunteering as a juror and observing the peer review process.

Earn and Learn: The Earn and Learn Restitution Program is a post-adjudication restitution program for juvenile offenders. Its premise is that restitution is effective only if a juvenile accepts responsibility for his or her offenses and is committed to the principle of making amends to the victim. The program is initiated after a presentence investigation when a probation officer recommends the youth either for incarceration or for probation. Those recommended for probation may also be placed into the restitution program. The goals of the program are to increase restitution payments made to victims of juvenile crimes, teach offenders accountability and responsibility for their crimes and provide structure and monitoring for their payment, reduce the workload of court counselors by reducing the numbers of juvenile offenders on probation solely due to restitution that is owed, support victims through the court process and the payment of restitution and help them file restitution claims, and provide juvenile offenders with employability skills and resources.

Trinity Place Runaway and Homeless Youth Shelter: Trinity Place provides a short term (15 days for less), co-ed emergency shelter for up to six youths ages 7 to 17 whom are homeless, have run away from home or are at risk of running. Trinity Place provides a safe, non-secure

residential care for runaway and homeless youth as well as youth in need of respite. The program provides assistance aimed at reuniting the family or arranging appropriate long-term placement. Trinity Place staff helps parents develop plans and family connectedness. While a youth is in care at Trinity Place, program staff attempt to help youth and families arrange for the long-term services that will help them work through on-going problems.

Youth Mediation Program: The Youth Mediation Program serves youth with conflict resolution services including mediation, victim offender mediation, and truancy mediation and guided problem solving. The Youth Mediation Program empowers juveniles to manage and resolve conflicts. In mediation, youth communicate their feelings and needs regarding a problem. They are also asked to empathize with the other person by listening to their perspective on the situation. Outcomes are mutually defined by all participants through cooperation and negotiation, enhancing interpersonal and problem solving skills.

Home Based Services for Juvenile Sex Offenders: This program offers services to clients who have been adjudicated for a sexual offense and have been ordered by the court to participate in an evaluation and/or treatment. The objective of the program is to provide a broad range of services to allow these youth to remain in their homes, promote safety in the community, and to prevent further sexual abuse. Services include safety and treatment planning, case management, 24/7 on call, individual group and family therapy.

Blue Ridge Treks is an adventure-based therapy program designed to enhance physical and psychological health and wellness in the Blue Ridge Mountains surrounding Asheville, North Carolina. Owned and operated by two professional therapists, the program model is based on self-leadership and developing meaningful relationships with others. The Summer Leadership Program within the Blue Ridge Treks umbrella is a 4-week, experiential skill-building group with a mentoring component. The group will meet 2 times per week for 6-8 hours each session, with a focus on wilderness and/or adventure experiences each session. There are two, (1) month Summer Leadership Programs built into this component and at least 16 adjudicated youth will participate. Activities will include hiking, whitewater rafting, canoeing, zip-lining, climbing, as well as high and low ropes courses. Blue Ridge Treks will also offer 100 free counseling sessions throughout the year to adolescents who have barriers to receiving counseling services. FIRST & Blue Ridge Treks work to increase each participant's sense of control over outcomes in their life, acknowledgement and acceptance of risks in their life, and taking responsibility for making decisions. We work to create a positive peer culture in which participants hold each other accountable for making positive changes over the course of the program. We work with youth to help improve dynamics within the home, school, and community - resulting in decreased recidivism and problematic behavior in the population we work with

Academic Enhancement provides alternative placement for adjudicate youth that are long or short term suspended, expelled, and/or have dropped out of school. The program offers a structured day with academics, character development, alcohol and substance abuse prevention, gang awareness, career assessment and conflict resolution from 10 a.m. – 3 p.m., using a licensed clinical social worker to facilitate parent support group meetings, providing open discussions on child management skills and communication skills, specifically during conflict situations between youth and parent; recognizing gang involvement within their community; addressing issues of drug abuse. The program offers free services to the community such as computer lab usage for GED preparation, on-line job investigation and placement, FAX service, etc. There are credit recovery opportunities for high school students who have failed one or more classes during the school year using our on-line learning software from 4 p.m. -7 p.m. Academic Enhancement provides an alternative placement outside the regular school day for Asheville City and Buncombe County Schools which should aid in decreasing the drop-out rate among at-risk youth.
