NEW BUSINESS

- Resolution Appointing a Clerk to the Board of Commissioners

The Chairman said that this was a hard position to fill with over 200 applications to choose from. He said Commissioners Frost, Whitesides and Belcher along with members of the staff worked together to select and interview 12 of the finalists. The full Board of Commissioners interviewed the final 6 applicants and Lamar Joyner was chosen for the position.

Lisa Eby, HR Director, reviewed Mr. Joyner’s qualifications for the position of the Clerk including his experience as the Deputy Director of Elections for Forsyth County and a degree in engineering that points to his ability to have attention to detail.

Commissioner Frost moved to approve the resolution as presented. Commissioner Whitesides seconded and the motion passed 7-0.

- Budget Message

Mandy Stone, County Manager, presented the budget message as attached to the minutes of this meeting. She said that the adversity of the past year was used by staff as an opportunity to make positive changes in areas that needed improvement. All department directors had worked hard to focus on serving the citizens in a tumultuous year and during many management structural changes and improvements. She reviewed the strategic priorities that the county focused on during FY18. Ms. Stone said that the Board had held over 50 hours of budget workshops to prepare for this budget and make online tools available to the public. She said that this budget maintains a 15% undesignated fund balance and that minus the requested increases from education, the budget would be proposed at the same rate as last year or 52.9 cents. She reviewed the fire service district increase requests, suggesting that a more sustainable financial model be implemented for all fire services for management and oversight. Twelve districts had requested increases ranging from 0.08 to 5.5 cents. She outlined proposed county support to be implemented in the coming year to assist with the management and oversight of fire service districts.

Ms. Stone invited the citizens to send questions and attend the public hearing on June 5 at 5 p.m.

Vice Chair Fryar thanked the Manager and staff for the work they have done on the budget.

Commissioner Whitesides said that this was a much different budget that he felt he could confidently vote for as a Commissioner.

Commissioner Frost thanked the staff for delivering a budget during difficult times.

Commissioner Belcher pointed out that all Commissioners had input into this budget, highlighting the positive improvements that were part of the budget and the hard work that had gone into the presentation. He said that the Mission merger could have a positive impact on future budgets. He encouraged everyone to check out the budget dashboards for more financial information.

Commissioner Frost thanked the Fire Chief’s for their service and continued strong partnerships.

Commissioner Beach-Ferrara agreed with the comments and also commended the budget process and access to information. She encouraged the public to continue to talk to the Commissioners about their concerns.

Commissioner Pressley thanked the Manager and staff for their hard work during stressful situations.

PUBLIC COMMENT

Don Yelton commended the Commissioners’ attempt to be transparent. He commented on Mission Health beginning to pay property taxes when they merge and suggested that the extra money that the County would receive be used to pay off the County’s debt.

Jerry Rice said that the Commissioners should have talked to him about the budget and be educated about the schools and their budget and fund balance. He felt that the schools were only increasing supplements for top salaries and would not be used for teachers.
