Open Deliberations:

- Discussion, questions and clarification from the committee for programs, including whether programs would be able to receive JCPC funds in addition to Medicaid reimbursements. Discussion included acknowledgement lack of MH clinicians throughout this field, and Medicaid reimbursements being low and not always covering the full cost of assessments.
- Eliada staff clarified that JCPC funds would cover more of the administrative staff and not the actual assessment, and discussed potential to change proposal to focus on uninsured clients, however would need to increase the proposed rate per person.
- Lorraine Williams was able to confirm that federal funds (e.g. Medicaid funds) cannot be a match for JCPC dollars. JCPC funds can be used for non-Medicaid youth, whether uninsured or underinsured. Agencies can still serve youth with Medicaid, though services would not be billable as part of the JCPC funded program.
- Tim Henderson proposed moving forward with funding all requests as requested, except the Eliada Home request to give that time to readjust given information discussed. Jeremy Bricker made motion as proposed, Suzanne Avett seconded, Sylvia Clement abstained, all others in favor, the motion carried.
- The recommendations will brought to the full JCPC next week to fund proposals approved today totaling \$68,451 out of \$84,902 available. Eliada Homes may come back with additional numbers to adjust their proposal.

- Discussed reallocation of remaining FY2022-2023 funds (\$16,451): existing programs may submit a brief emailed proposal. Executive Board will converse via email before next Thursday's full JCPC meeting regarding process to reallocate the final remaining funds. An email will be sent with deadline for proposals.
- Tim Henderson proposed to open discussion at that meeting regarding multi-year funding and timeframes with plan to vote on multi-year funding in December.

Tim Henderson motioned for the meeting to adjourn, Jeremy Bricker seconded, all in favor, the motion carried.
