New Business

Review Scores – Burnett shared ECE grant application scoring model workbook. Philip Belcher requested a reminder about allocation that is going to Asheville City Schools. Jasmine Beach-Ferrara asked whether the Buncombe County Schools (BCS) grant at Verner was a one-year or multi-year request. Staff believes that it is a multi-year request. The answer could affect budgets, so staff will ask BCS whether the Verner grant is one-year or multi-year. There were no additional questions about the scoring workbook or other suggestions for improving it.

Next steps:
- Staff to determine status of Verner funding (one-year vs multi-year)

Any adjustments needed related to COVID-19? – Burnett Walz summarized feedback from applicants re: COVID-19. No applicants requested changes to funding amounts; some did indicate that timelines had changed. Jasmine asked committee members if they wanted to proceed as planned or adjust due to changes in community with COVID-19. The committee acknowledged the need to base funding decisions on what we know now.

Review Questions for Applicants – The committee agreed to send relevant questions to applicants who scored 70% and above on the committee’s initial rankings. Christy asked for feedback from applicants hiring staff so that the committee could understand how hiring might be affected by the COVID-19 situation.

Next steps:
- Staff to send follow-up questions to applicants scoring 70% and above.
- Staff to clarify multi-year funding amounts vs single year amounts.
