## Narrative summary of grant related activities

Overall project	The Behavior Specialist has worked with children on the same things as Q2 and has taken on an additional 3 children
updates:	into her case load. She works with them on physical aggression, verbal aggression, telling the truth, respecting property, and regulating emotions. She is teaching the kids breathing techniques, mindfulness and the language to express ourselves. She is also working directly with teachers on implementing behavior plans and is modelling implementation in the classroom as a coaching technique. She spends approx. 4 hours daily in classrooms. She is also looking for patterns in behaviors to learn about potential triggers. The individual behavior plans are able to be used by floaters who may be less familiar with individual kids when they enter their classrooms. Both floaters and teachers now use a binder to document behaviors so that the Behavior Specialist can follow up with them later. The Behavior Specialist is also now a part of a behavioral cohort with the Sunshine Project and other centers. They meet once a month to share information and strategies.
COVID-19 impacts:	We have opened our campus back up to all, visitors, therapist and volunteers, they do have to go through the health check in order to be on campus. All of our school age children have went back to school and come to us in the afternoon for after school. Our census numbers are going back up to our orginal numbers prior to COVID.
Activities related to increasing equity, diversity and inclusion:	Same response as Q2, no significant changes: Eliada launched an agency wide steering committee on diversity equity and inclusion. So far, two subcommittee workgroups have come out of this steering committee including one on internal and external communications and one on human resources practices. These subcommittees are looking to eliminate barriers to staff of color, increase staff recruitment efforts in communities of color, and come up with an inclusive language that can be used in both internal and external communications.

Activities related to
increasing operational
excellence:

- 1. Eliada completed the COA (Council on Accreditation) reaccreditation process and this includes our Child Development Center. We are waiting on the results.
- 2. One of Eliada's goals has been improving staff retention. At the beginning of our fiscal year we gave 3% COLA raises to all staff and plan to do this every fiscal year. We just completed yearly evaluations so that we can start working on those pay increases that are coming up.
- 3. With NC PreK now back in session this past quarter we have also begun the assessment process to track progress on developmental milestones. Teachers are working end of the-year assessment to track process since the start of the school year.

Teacher attendance	80%	96%	95%	95%		96%

#### **Comments:**

1. The Behavior Therapist is also still working with the 8 children from Quarter 1. The total number of behavioral services therapy provided therefore represents 13 children. It also includes time during crisis-intervention. The Behavior Specialist works with each child one-on-one for approximately 45 minutes/week. Proving a training series for teachers has been challenging during COVID. The Behavior Specialist has one scheduled for June in Q4. The Behavior Specialist spends about 4 hours per day in the classroom coaching teachers.

2. We recieved funding to extend NCPK for an additional 6 week for 27 children, it is NCPK Summer Learning Program. The program also gave additional funds to raise NCPK staff's pay during the 6 weeks.

3. Student achievement for the end of the year assessments are below.

#### **Comments:**

While Quarter 1 we only had 1 Behavior Specialist for part of the time, Quarter 2 represents a Behavior Special being here for every pay period in the quarter. This represents \$10,657 of our personnel line item. The remaining \$44,000 represents \$1,000 bonuses for staff. We decided to apply the bonuses in Q 2 for a couple reasons: 1) It was leading in to the holidays which can be a stressful time financially for staff; 2) Costs of heating and electric go up in the late fall/winter which can also cause financial strain. We gave the bonuses based on the following criteria: 1) Was hired as an Eliada employee prior to 11/1/2020. 2) Is still going to be employed on the check payment date of 11/27. Anyone ending employment on the 27th or before will not be eligible for the bonus. 3) Has worked at least 20 hours since 10/1/2020. Quarters 3 and 4 will just represent the Behavior Specialist and not staff bonuses.
