Narrative summary of grant related activities

Please provide brief responses that fit within the box provided

Overall project updates:	Between 1/1/22 and 3/31/22 Project Access® screened 120 applicants for Social Determinants of Health. Of those, 107 or 100% of those who requested assistance with accessing SDOH resources received referral and navigation assistance from a Project Access® Health Access Coordinator. Additionally, 100% of applicants who needed language services received free interpreter services through the WCMS Interpreter Network. The Project Access® Outreach Manager continues to look for additional resources for transportation and employment assistance. We have begun providing bus passes as an additional resource for transportation assistance.
Activities related to increasing equity, diversity and inclusion:	WCMS and Project Access® continue to work to increase equity, diversity and inclusion. We continue to co-locate Health Access Coordinators at area safety net clinics, which provides greater access for applicants who might benefit from additional and in-person assistance with applying to Project Access®. We are now co-locating at three clinics and will be at a fourth clinic starting in the last quarter of this project. We also work to increase equity in health access through the activities of the WCMS Interpreter Network.
Activities related to increasing operational excellence:	We increased operational excellence in the third quarter by resuming co-location of Health Access Coordinators at three clinics, each a half day a week, and will be at a fourth clinic starting in May. Having a Health Access Coordinator onsite at the clinic makes the application and enrollment process easier for patients.
