I. Purpose
These are small grants to help amplify community efforts. These grants will either fuel what is already happening or allow you to develop your own local projects that create pathways to greater resiliency in your community – actions that will stack positive factors, such as stronger connection, communication, and development of our community leaders, while offloading negative factors like isolation, hopelessness, and violence. These initiatives help build out a resource grid in our community that enables all of us to be safer and healthier. The intention of the program is to not only provide a financial infusion, but also bolster existing community connections and communication platforms. Ultimately, we are looking to develop leaders while increasing both your connections and the ability to communicate your work to the community. Those efforts will also help lead to eliminating barriers such as isolation and hopelessness. This funding source is aimed at bolstering individual innovative ideas and existing nonprofits that are vital to the health of our community. All individual innovators must be in partnership with a nonprofit agency.

II. Funding
Tipping Point Grants are supported through general county funds, which are budgeted as part of Buncombe County’s annual budget. The amount for FY2025 is $100,000, subject to budget adoption. Tipping Point Grants will be allocated at $5,000 per project.

X. **Performance Contracts**
All grant awards will be administered via performance contracts. Contracts will include a scope of work that defines services, deliverables and reporting measures.
FY2025 contracts will be for the period July 1, 2024 through June 30, 2025. Funds will be paid in full up front once contracts are fully executed. All funds must be spent or returned to the County by June 30, 2025.

Contracts will also include standard indemnification and insurance expectations, which lists the minimum insurance coverage which Contractors agree to procure and maintain. Required insurances and levels vary depending on the nature of the project and can include types such as: Worker’s Compensation; Commercial General Liability; Employer’s Liability; Professional Liability; etc. The County will collect and review certificates of insurance as part of contract compliance. In addition to the standard contract expectations for all organizations doing business with the County, nonprofits receiving grant funds must also:

- Open their books for the contracting department;
- Submit copies of annual IRS tax filings (Form 990s); and
- Submit annual financial statements based on a tiered structure, consistent with industry standard practice:
  - Audit: Organizations with annual revenues of $300,000 or greater must submit financial statements audited in accordance with generally accepted auditing standards.
  - Review: Those with revenues between $100,000 and $300,000 must submit financial statements reviewed in accordance with applicable Statements on Standards for Accounting and Review Services (SSARS).
  - Compilation: Those with revenues of less than $100,000 must submit non-disclosure financial statements compiled in accordance with applicable SSARS.
  - Nonprofit agencies may request a waiver to use other third-party provided documents.
  - Nonprofit agencies that may have challenges with these expectations have the option to work with staff in finding alternative proof of financial standing.

Contract performance will be monitored and evaluated by the County throughout the year, including review of financial and programmatic reporting to ensure funds are utilized in accordance with the public purpose for which they have been granted. Performance results will be published online, and all information related to the grant is considered to be public record.
