STAND UP FOR YOUR BUSINESS
SHUT DOWN COVID - TESTING GUIDE

Do you have symptoms of COVID-19?

YES

Get tested immediately and stay away from others while you wait for test result. The CDC recommends that anyone with symptoms of COVID-19 get tested, regardless of vaccination status or prior infection.

For steps to take after testing, visit: https://covid19.ncdhhs.gov/about-covid-19/testing/steps-take-after-covid-19-testing

NO

Have you been in contact with someone who has confirmed or suspected COVID-19?

YES

NO

You do not need to get tested at this time.

Have you been fully vaccinated?

NO

YES

YES

Have you tested positive for COVID-19 within the past 3 months and recovered?

Get tested 3-5 days after last known exposure. Wear a mask in public indoor settings for 14 days after your last exposure or until you receive a negative test result. If you tested positive for COVID-19 within the past 3 months, you do not need to be tested.

NO

If an employee tests positive and was in close contact with fully vaccinated staff, does the staff need to go home before they are tested?

No, fully vaccinated staff do not need to quarantine. They should be tested 3-5 days after last known exposure. However, if anyone becomes symptomatic, they need to get tested right away and stay home while awaiting results.

Get tested right away, and, if negative, get tested again 5-7 days after last exposure. Stay home for 14 days after your last exposure and watch for symptoms of COVID-19. If possible, stay away from other household members during this time.
