TOOLS FOR STARTING THE CONVERSATION

Be A Hero Tent Card:
This tri-fold tent card can be placed on a check-in desk or in the waiting room area. It is intended to prompt discussion around scheduling immunizations.

Information Card for Clients
This card can be used as a take away for clients. It encourages parents to ask their doctor questions about risks vs. benefits of immunizations. The Immunization Clinic phone number is listed if clients have more questions.

Buttons for Front Desk Staff

Immunizations Infographic
(Size 16” x 24”)
This poster sized infographic can be placed in the waiting room or in the exam room. The content and color scheme of the infographic mirrors the 4 Questions Poster (below) and contains the most important bite-sized pieces of information.

4 Questions (Size 8.5” x 14”)
4 Questions is intended to remind parents to ASK questions. The 4 Questions poster can be hung in the exam room or wherever patients will be speaking with doctors or nurses. The content reinforces the information found on the resource card, infographic and the Tips Sheet for providers.
Supporting Medical Providers: 
Productive Conversations About Immunizations

Talking with Parents about Immunizations:
This double-sided laminated guide is modeled after the CDC’s Guide to Talking with Parents About Immunizations. The Q & A helps providers quickly respond to patient’s most frequently asked questions. The algorithm on the opposite side supports the conversation through the Ask, Acknowledge, Advise. method- a proven way to efficiently address patient’s questions and concerns.

YOU ARE THE TRUSTED EXPERT!
A quick talk about immunizations can make a big difference in our community!

Ask parents if they have questions about immunizations.

Acknowledge that information in the media can be confusing. It is good to ask questions.

Advise based on your medical knowledge and concern for their child. What you think matters!

Immunization Reminder Postcards
These images can be used as a mailer or as an image for patient portals or in an email reminder to remind patients about immunizations.

A reminder for clinical staff (especially doctors) that they can help protect our community with a short conversation about immunizations.

The short “Ask. Acknowledge. Advise.” conversation method is easy to remember and fits into the limited time offered during the office visit. This can be placed in a break room or in an office to remind healthcare providers that a few minutes can make a big difference.
Conversations with Children about Immunizations
Getting kids excited and invested when it comes to health...

I'M A HERO Stickers
“Wow! You are now a part of the shield of protection so you get a special Immunization Hero sticker! You did a great job getting your immunization(s) today!”

MVIP Card
MVIP (Most Valuable Immunized Person) Card is the official pass into the ‘club of heroes’. “Here is your MVIP Card. Now you are an official immunization hero! Here are the immunizations you got today.” It is also intended to serve as a reminder to healthcare providers to record immunizations in NCIR.

Immunization Hero Wall of Fame
The Immunization Hero half page sheet is for kids to write their first name on and post on the wall with the rest of the “heroes” so that they understand that they are joining the shield of protection along with other children— which is something to be proud of! The concept is similar to any number of fundraisers but this one is just for KIDS!
“You are now a Immunization Hero! Choose the hero that you like and put your name here so everyone can see that you joined the protective shield!”

*Using a first name only on the Hero Wall will not violate HIPAA requirements.
