We are a place where people involved with the justice system can access meaningful services to help them on a path to stability and wellness.

A PLACE OF OPPORTUNITY

Why It Matters

Involvement in the criminal justice system can carry lifelong impacts on the health, safety and well-being of individuals, families, and neighborhoods.

Many individuals with justice involvement are also impacted by poverty, trauma, mental illness and/or substance use disorders. We provide services and seamless linkage to community resources.

An Assertive Model

Case Management is a voluntary service for individuals involved in the justice system.

We assist clients with navigating through the complexity of the justice system and community resources.

We also connect clients to services that address mental health and substance use disorders, medical conditions, unemployment/under employment and homelessness.

Services Provided

Case Management Services are tailored to the individual and can entail:

- Screening of client's needs and development of a service plan.
- Screen and refer client's to on-site providers as well as existing community resources.
- Communicate with referral sources such attorneys, pretrial services, and probation about the needs of the clients.
- Utilize solution-focused techniques to guide individuals in successful completion of probation conditions, pre-trial supervision and/or other court-ordered assessments and treatment recommendations.
- Assertive outreach / service connection
- Evidence Based groups and classes

Goal

Our goal is to reduce recidivism and increase compliance with court-ordered sanctions by connecting individuals to needed resources and assisting them with navigation through an extremely complex system.

Eligibility

Individuals involved in the justice system having difficulty navigating the system, complying with court-orders or in need of services that lead to stability, wellness and self-sufficiency.

Referrals

Many clients are referred through the courts, law enforcement, attorneys, community supervision and area service providers.

We accept self-referrals on a case by case basis.
