Court Services: April PSA Volume

The Public Safety Assessment (PSA) is an actuarial tool that uses factors to predict pretrial success or failure. The PSA, along with other information, can be used to help inform release decisions. The PSA does not make release decisions. For more information about the PSA, see [Advance Pretrial Policy & Research](#).

Court Services: 2022 Concurrency Rate

Concurrency refers to the rate at which the recommendation provided by the release matrix aligns with the release decision made by the judicial official. It is important to note the PSA and release matrix are just two of multiple sources of information a judicial official can use when making a release decision. Neither the PSA nor release matrix directs a judicial official as to if and under what conditions a person should be released. Therefore, the concurrency rate will never be 100%.

On each supervision assignment, there is a judicial override flag that indicates a deviation from the release matrix recommendation. The concurrency rate is calculated by dividing the number of judicial overrides with the number of supervisions opened. Only supervisions with a PSA scores are used in this calculation.

Community Supervision: April Assignments

114 Supervisions Opened

140 Supervisions Closed

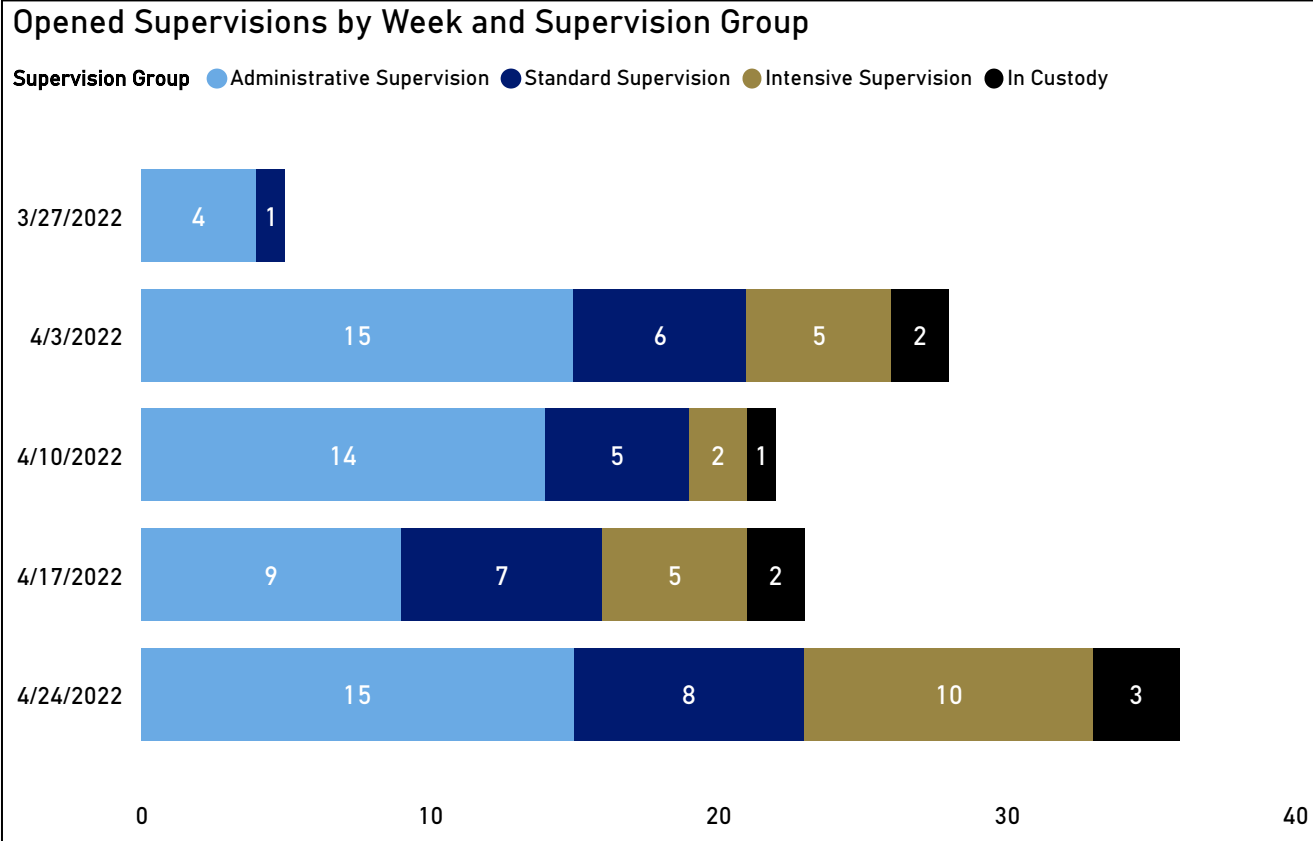

A person can be assigned to pretrial supervision by a district or superior court judge. They can be assigned to supervision on all or just select pending charges. For the purposes of this dashboard, a supervision is counted as one supervision regardless of the number of charges the person has been assigned to supervision for. For example, if a person has six pending charges in Buncombe County, and they have been assigned to supervision on four of those charges, that is counted as one supervision.

Average Daily Caseload by Top Charge Type

In some situations, a person is booked into jail on a charge that is not assigned a charge type in the database. In these circumstances, the charge is listed as "Unclassified." Examples of such charges include pretrial violations, local ordinances, and certain types of drug charges.

Community Supervision: FY 2022 Technical Violation Rate

1,466
Closed Supervisions

163
Closed - Technical Only

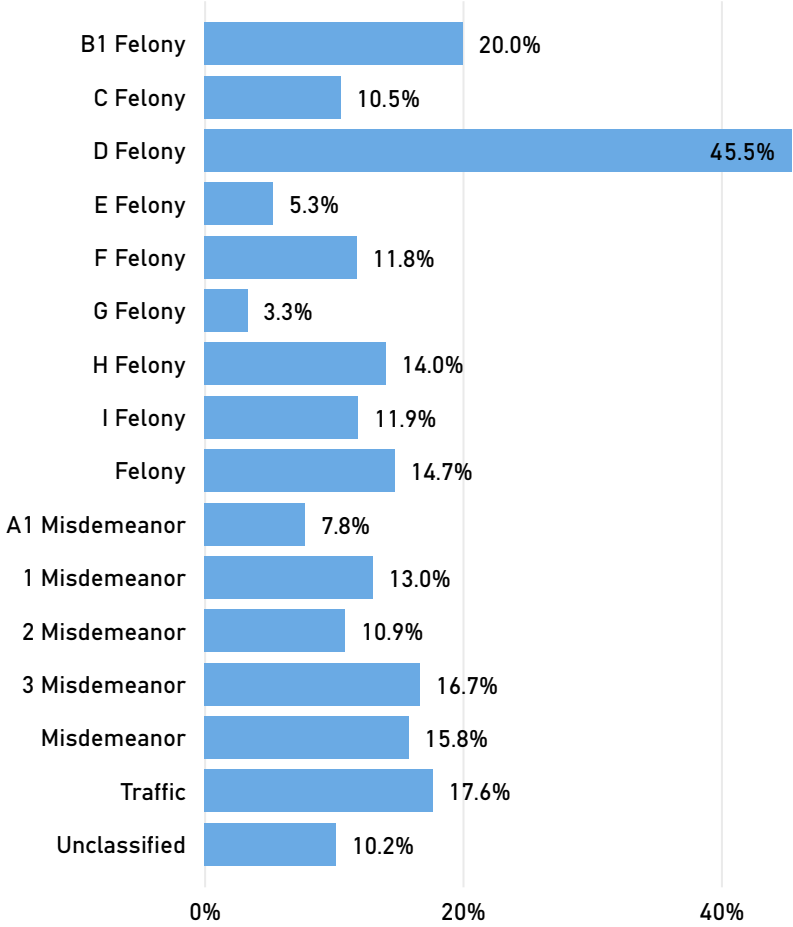

Technical Violation Rate
11.1% ✓
Goal: 14.8%

When a supervision is closed, it is flagged as successful or unsuccessful. Unsuccessful supervisions are closed due to the following reasons: a new charge occurs, an individual fails to appear in court, an individual violates release conditions set forth by a judge (technical violation), or some combination thereof. A closed supervision that is unsuccessful is counted as a technical violation if "technical violation" is the only disposition reason identified on the supervision. Pretrial Services has set a goal of no more than 14.8% of cases closed be due only to a technical violation. Technical Violation Rate does not include supervisions that were never released from custody.

Community Supervision: FY 2022 Public Safety Rate

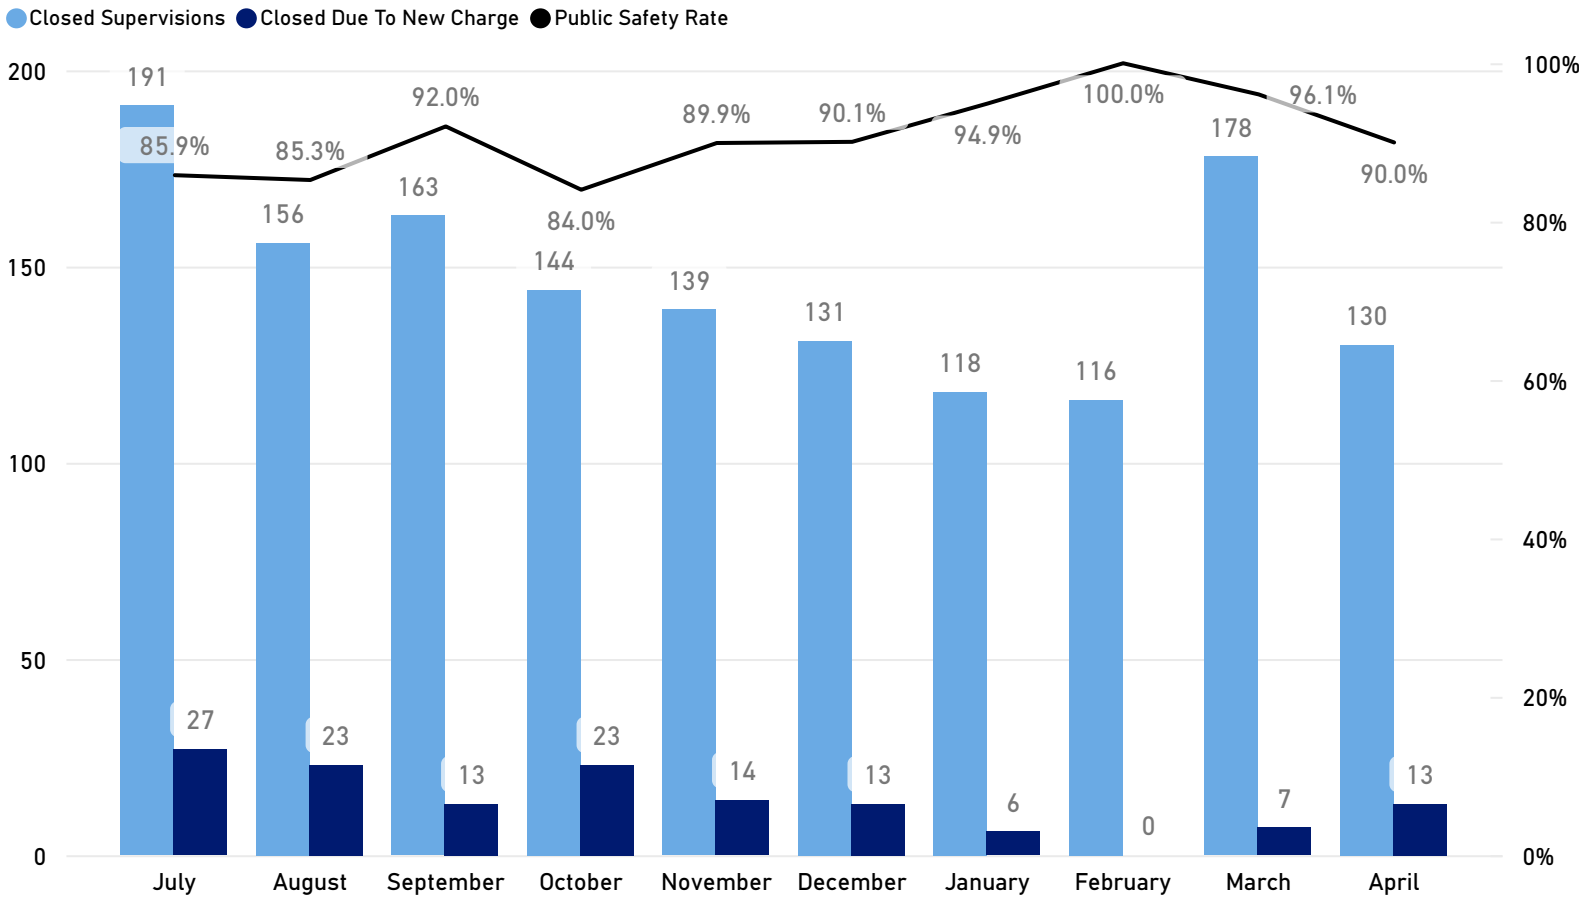

1,466
Closed Supervisions

139
Closed - New Charge

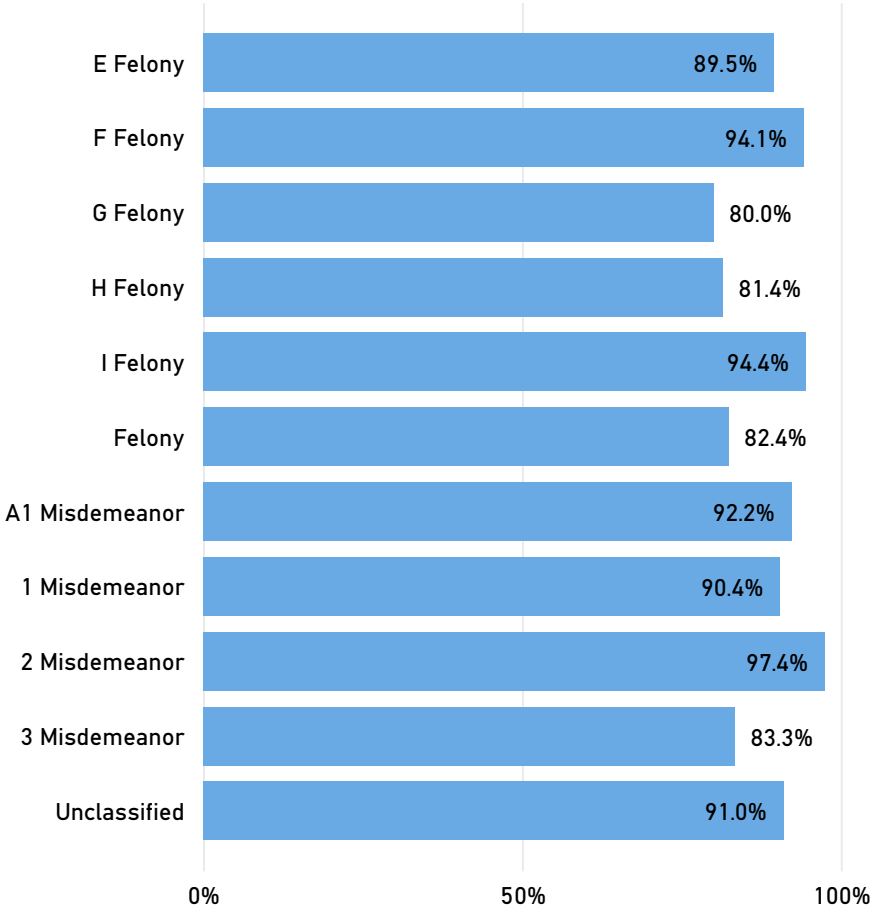

Public Safety Rate
90.5% ✓
Goal: 90.0%

When a supervision is closed, it is flagged as successful or unsuccessful. Unsuccessful supervisions are closed due to the following reasons: a new charge occurs, an individual fails to appear in court, an individual violates release conditions (technical violation), or some combination thereof. A closed supervision that is unsuccessful is closed due to new charge if "new charge" is one of the disposition reasons identified on the supervision. Pretrial Services has set a goal that at least 90% of supervisions are closed without the client receiving a new charge during the supervision. Public Safety Rate does not include supervisions that were never released from custody.

New Charges by Month

Public Safety Rate by Top Charge Offense Level

Community Supervision: FY 2022 Appearance Rate

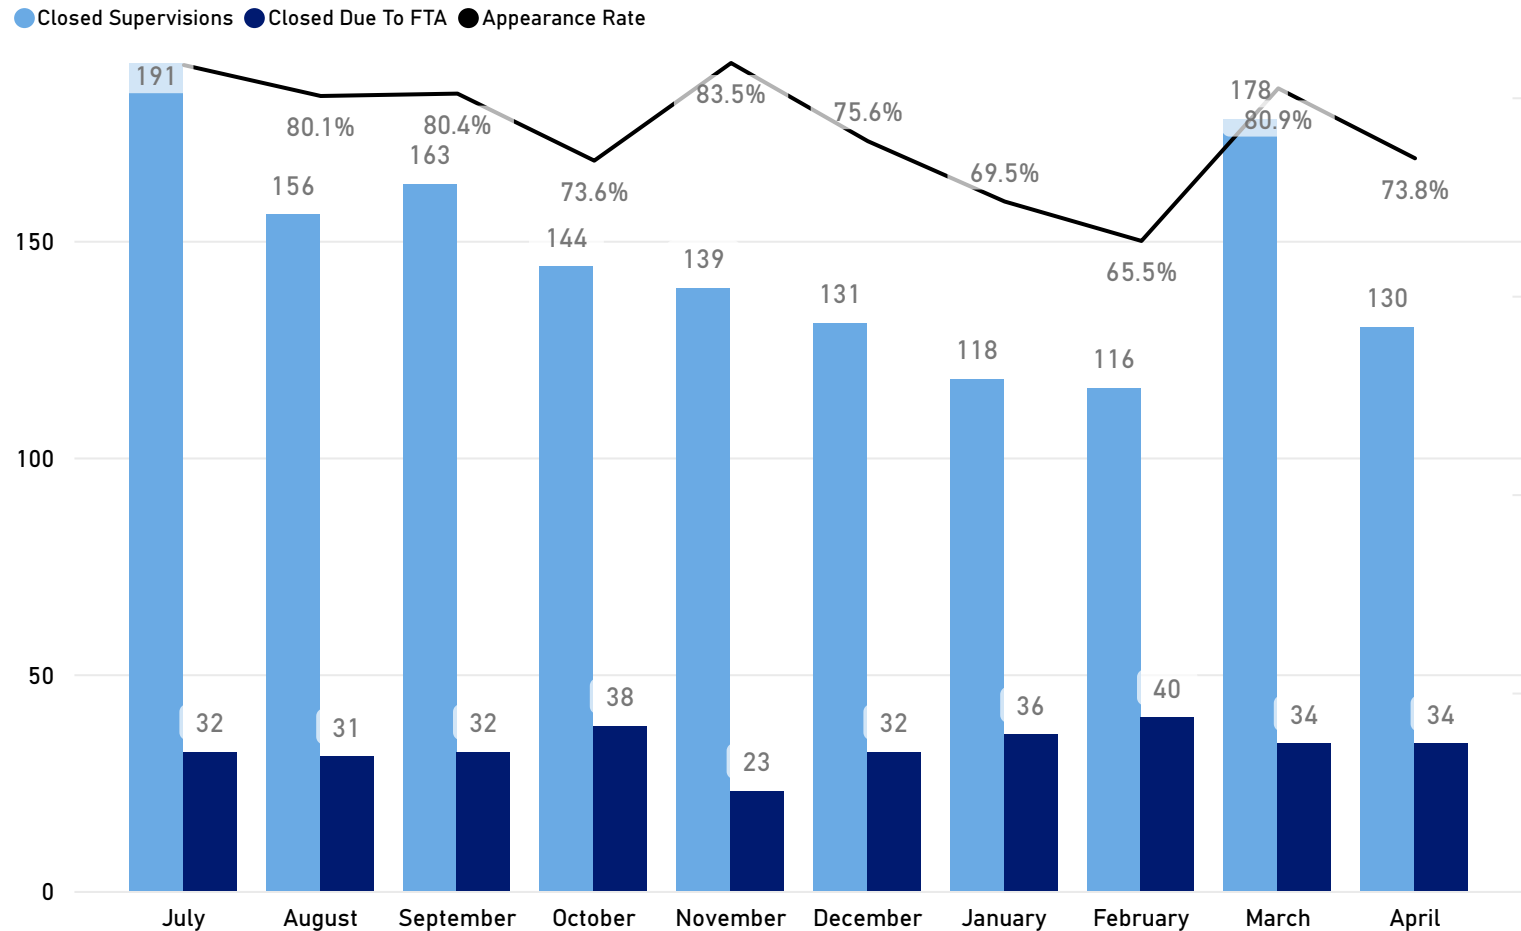

1,466
Closed Supervisions

332
Closed Due To FTA

Appearance Rate
77.4%!
Goal: 90.0%

When a supervision is closed, it is flagged as successful or unsuccessful. Unsuccessful supervisions are closed due to the following reasons: a new charge occurs, an individual fails to appear in court, an individual violates release conditions (technical violation), or some combination thereof. A closed supervision that is unsuccessful is closed due to FTA if "FTA" is one of the disposition reasons identified on the supervision. Pretrial Services has set a goal that at least 90% of case are closed without the client receiving an order for arrest due to a failure to appear during the supervision. Appearance Rate does not include supervisions that were never released from custody.

Community Supervision: FY 2022 Compliance

1,466
Closed Supervisions

861
Compliant
605
Non-Compliant

58.7%
Compliant
41.3%
Non-Compliant

A supervision is defined as compliant if it is closed without a technical violation, a new charge, or a failure to appear. Pretrial Services aims for technical violation rates closer to 0% while appearance and public safety rates should be closer to 100%.

Supervision Compliance by Race

American Indian / Alaskan Native	3 Closed Compliant	37.5% Compliance Rate
Asian / Pacific Islander	7 Closed Compliant	58.3% Compliance Rate
Black	180 Closed Compliant	62.7% Compliance Rate
White	671 Closed Compliant	57.9% Compliance Rate
