# Community Engagement

***The following quotes were notable from the October 22<sup>nd</sup> & 29<sup>th</sup> virtual town halls, and were selected as a small representation of the kind of input that was heard from various citizens.***

*“I am a senior at SILSA and the leader of Keeping it R.E.A.L. which is the first of its kind at Asheville High School and SILSA and I'm calling from West Asheville....my recommendation for the Vance Monument is for its removal, and that the money for its removal should come from grants and other financial resources rather than taxpayer-funded. This is wage to the monument being built by repressive forces and should be demolished without the need from taxes from the very people it is currently offending. Thank you for donating your time to this endeavor and removing an emblem of hate” – **Seth Bellamy***

*“As a direct descendant of Vance...removing the monument does not erase my family’s legacy, but it does represent a small step toward repairing the harm my family legacy imposed upon this community, which I call home and I deeply love. On behalf of my family, I thank you for your work.” – **Noel Nickle***

*“I would like to see the Vance Monument removed. I think that it is cultural appropriation at its finest...I don't see how you would repurpose what it was originally erected for just by placing a plaque upon it or a painting it some different colors. It's not going to change the nature of what it is and who it was erected for and what it [obelisk] is meant to do throughout the Egyptian belief system. I do not believe that it should be kept in the form of fashion that it is...” – **Robert Thomas***
