

MAKE YOUR OWN MEADOW WORKSHOP

1 - 3 PM FEBRUARY 17, 2024

Are you interested in establishing a meadow or pocket prairie on your property? This hands-on workshop with Nathan Buchanan, of Wildbud Natives, will cover the nuts and bolts of installing a meadow-themed planting. If you've been to one of these workshops before, think of this as a Part 2, covering more of the hows and less of the whys. This could be a great way to figure out how to prepare an area for native grasses on offer at the March 2 Buncombe County Soil and Water seedling sale.

This workshop is free and spots fill quickly!
